### **DETAILED ACTION**

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). Note: there was no original numbering of claim 18. During telephone conference with Mr. Glenn Seager on March 6, 2003, where Mr. Seager agreed to cancel claims 2-21.

Misnumbered claims 22-50 have been renumbered 21-29.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 27-32 and 37-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 27-31 and 36-39 recites the limitation "the docking member" in lines 1 and 2. There are insufficient antecedent basis for this limitation in the claim.

#### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application

Art Unit: 3731

by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 21-30, 34-38, 42-47 are rejected under 35 U.S.C. 102(e) as being anticipated by Bates et al. (U.S. 6,179,859).

Bates et al discloses in figures 1-3, a guidewire (11) disposed within a sheath (20); a filter (30) having ribs or tapered frame (32) coupled to a mouth (38) of said filter (30); and a tapered stop member (12) coupled to the distal end of said guidewire (11) to prevent the filter (30) extends beyond distal end of said guidewire (11).

***Allowable Subject Matter***

6. Claims 30-32, 39, 40, 48, and 49 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art of record disclose or suggest the stop member (docking member) including a channel, wherein a portion of the filter disposed within said channel.
